### 8. Hospital treatment—excluded treatment

The following classes of treatment are specified for the purposes of subsection 121-5 (4) of the Act:

- (b) treatment provided to a person at an emergency department of a hospital; and
- (c) treatment provided to a person who is not a patient within the meaning of that word in paragraph (b) of the definition of 'patient' in subsection 3 (1) of the *Health Insurance Act 1973*; and

Note: 'Patient' as used in paragraph (b) of the definition of 'patient' in subsection 3 (1) of the *Health Insurance Act 1973* does not include a newly-born child whose mother also occupies a bed in the hospital except in certain specified circumstances.

- (d) treatment which is part of a chronic disease management program that is intended to delay the onset of chronic disease for a person with identified multiple risk factors for chronic disease; and

Note: Paragraph (d) does not refer to a chronic disease management program that is intended to prevent the onset of chronic disease for a person with identified multiple risk factors for chronic disease as hospital treatment is treatment intended to manage a disease, injury or condition and does not cover prevention—see the meaning of hospital treatment in subsection 121-5 (1) of the Act. Treatment intended to prevent a disease may be general treatment—see subsection 121-10 (1) of the Act.

- (e) excluded natural therapy treatment.

### 9. General treatment—included treatment

Ambulance services associated with the provision of treatment to an insured person are specified for the purposes of subsection 121-10 (2) of the Act.

- (c) the associated services in the:

  - (ii) diagnostic imaging services table,
 that are integral to the provision of the services specified in paragraphs (a) and (b),

but only when any of the services in the above classes are provided as part of hospital-substitute treatment.

Note 1: The effect of this rule is to provide for the above treatments or services that are eligible for a medicare benefit to come within the definition of hospital-substitute treatment.

Note 2: Private health insurers cannot cover, as part of general treatment (including hospital-substitute treatment) professional services for which medicare benefit is payable, except as provided for in this rule.

Note 3: Section 126 of the *Health Insurance Act 1973* prohibits insurance regarding professional services for which medicare benefit is payable, other than a complying health insurance policy entered into by a private health insurer that covers hospital treatment or hospital-substitute treatment, or insurance regarding a person who is an eligible person by reason only of being treated as an eligible person under subsection 7 (2) of the *Health Insurance Act 1973*.

- (ii) prevent or delay the onset of chronic disease for a person with identified multiple risk factors for chronic disease; and
- Note: A chronic disease management program intended to prevent or delay the onset of a chronic disease in a patient can be general treatment only—see paragraph 121-5 (1) (a) of the Act and paragraph 8 (d) of these Rules in respect of hospital treatment, and paragraph 121-10 (1) (a) in relation to general treatment intended to prevent a disease.

Endnote 1—About the endnotes

Endnote 2—Abbreviation key

Endnote 3—Legislation history

### Abbreviation key—Endnote 2

The abbreviation key sets out abbreviations that may be used in the endnotes.

### Legislation history and amendment history—Endnotes 3 and 4

Amending laws are annotated in the legislation history and amendment history.

The legislation history in endnote 3 provides information about each law that has amended (or will amend) the compiled law. The information includes commencement details for amending laws and details of any application, saving or transitional provisions that are not included in this compilation.

The amendment history in endnote 4 provides information about amendments at the provision (generally section or equivalent) level. It also includes information about any provision of the compiled law that has been repealed in accordance with a provision of the law.

### Editorial changes

The *Legislation Act 2003* authorises First Parliamentary Counsel to make editorial and presentational changes to a compiled law in preparing a compilation of the law for registration. The changes must not change the effect of the law. Editorial changes take effect from the compilation registration date.

If the compilation includes editorial changes, the endnotes include a brief outline of the changes in general terms. Full details of any changes can be obtained from the Office of Parliamentary Counsel.

### Misdescribed amendments

A misdescribed amendment is an amendment that does not accurately describe how an amendment is to be made. If, despite the misdescription, the amendment can be given effect as intended, then the misdescribed amendment can be incorporated through an editorial change made under section 15V of the *Legislation Act 2003*.

If a misdescribed amendment cannot be given effect as intended, the amendment is not incorporated and “(md not incorp)” is added to the amendment history.
